

# Technical Rider

## Ibrahima CISSOKHO & Mandingue Foly

This technical rider is an integral part of the initial contract. Respecting all clauses is important for a smooth-running show.

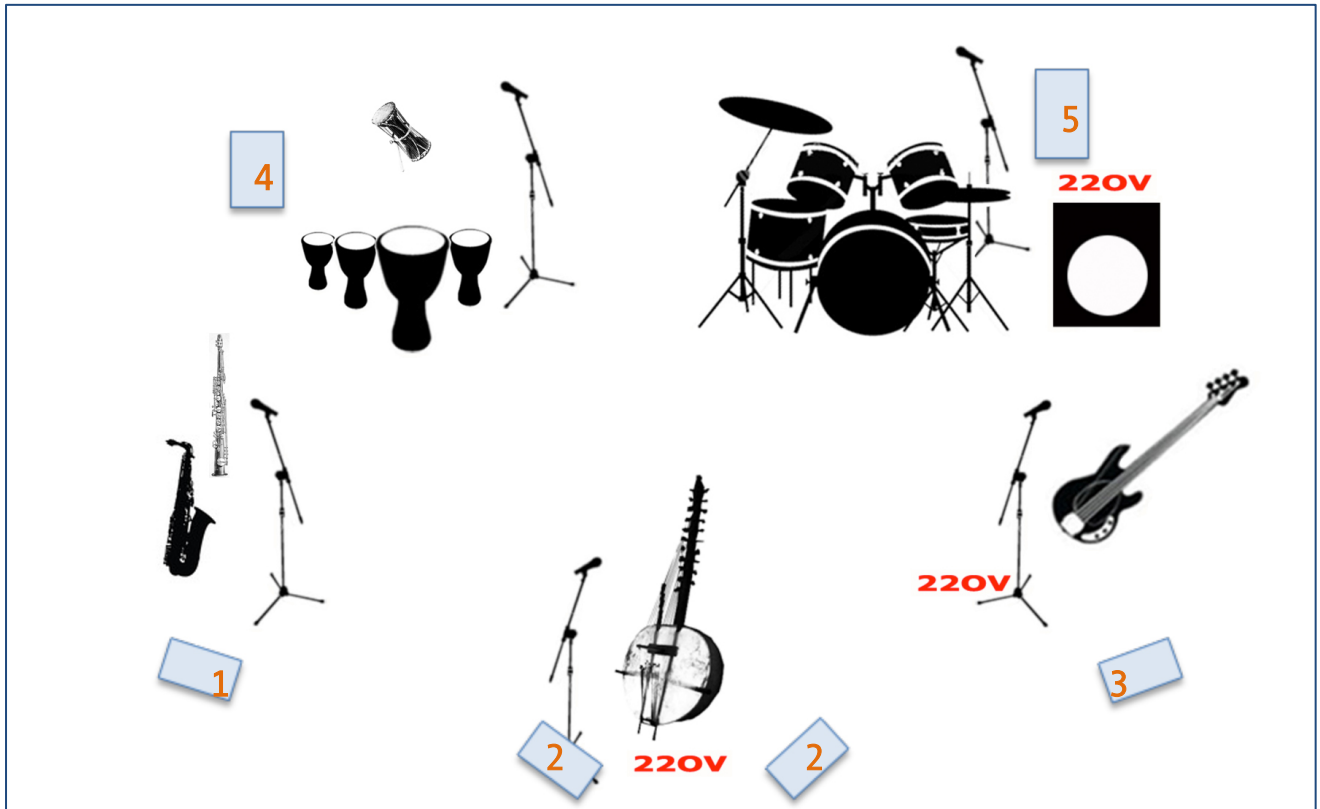

The organizer must provide a professional sound system, as well as a qualified technical team ensuring installation and technical assistance during the soundcheck and the concert.

PA	High quality professional PA with subs, adapted to the room
Mixing Desk	32 channels with : 5 pre-fader Aux, 4 post-fader Aux
Outboard	2 Reverbs (Lexicon, TC Electronic...) 1 Delay Fx1 (pedal effect) and Fx2 (pedal effect) are provided by the band 12 compression channels (Dbx...) 7 EQ channels 31 bands (Klark Teknik...)
Monitor	6 wedges 5 different channels
Miscellaneous	Stage minimum dimensions: 7 m wide, 5 m deep Riser (6m(W) x 2m(D) x 0.4m (H)) for drums and percussions 1 stand (or empty flycase) for bass amp Microphones: see sound patch 12 high mic stands 4 low mic stands
Backline	1 bass amp (Markbass, Ampeg) 1 drumset (maple shell, 14x5-5,5 wood snare, 22" or 20" kick, 10", 12" toms, 14" or 16" floor toms, 4 boom stands) 1 guitar stand 1 keyboard stand (for the đàn bầu) 1 piano bench

For the smooth running of the show it is very important to comply with this technical rider. Equivalences can be proposed; however, any changes or proposals must be discussed with our sound technician.
